319. GORDON, ARCHIE WATT, 87 Archie Watt Gordon, age 87, passed away on January 22, 2009. A viewing will be held at 2:00 PM on Monday, January 26, followed by a memorial service at 3:00 PM at Hiers-Baxley Funeral Services, 910 E. Silver Springs Blvd., Ocala, Florida. Mr. Gordon will be buried in Ocala at Highland Memorial Park. Archie was a native Floridian who was born and raised in Ocala, Florida. In the early 1900's, Archie's father, Henry Gordon, served as Sheriff of Marion County and also as Chief of Police of Dunnellon, where he was killed in the line of duty. Archie was three years old at the time. As his father's only surviving son, Archie was raised by his mother Bertha, his two older sisters, Lillian and Winnie, all of whom precede him in death; and, he was lovingly mentored by many male members of the community, notably the late Clifford Fawcett Sr. Archie served in the Navy during World War II as a Boatswain's Mate First Class. Following the war, Archie attended the University of Miami, then the University of Florida, where he enjoyed college life as a Kappa Sigma fraternity member and also graduated with a degree in Electrical Engineering with honors. Archie worked his entire career and life as a professional engineer. He served as a civil engineer and also specialized in electrical engineering for much of his life, helping to establish rural electric cooperatives throughout the entire state from Key West to Panama City. In point of fact, Archie served for 61 years as the consulting engineer for Gulf Coast Electric Cooperative in Wewahatchka, Florida, retiring in December 2008. During the last 20 or so years of his life, Archie worked in the field of forensic engineering where he pioneered and set many forensic standards. He was also an expert in the field of water management working to preserve and protect Florida's water. Archie was a partner for decades with Marion Engineering in Ocala, and even at his death, still owned and operated his own firm "Gordon Engineering." Archie Gordon leaves a legacy of unparalleled accomplishments and a foundation that still supports extraordinary excellence of engineering products and services for a vast number of recipients all over the Southeast. Archie was an avid hunter whose woodsman skills began as a youth hunting and fishing in the Ocala National Forest to help feed his family. As a young adult he put his woodsman skills to task working for the Ross Allen Reptile Institute at Silver Springs, where he performed daily rituals of putting alligators to sleep and waking them up; and, handling a variety of writhing snakes for awe struck tourists, especially enjoying the drama of catching and milking fierce looking rattling specimens surrounding him in the Institute's famous "rattlesnake pit." Archie was completely at home in the piney woods or flatwoods, cypress swamps or the great

deep woods of Florida. The walls and beams of Archie and his wife Mary's incredible home in Lake Weir, bears witness to his love of the outdoors and his skill as a woodsman. Every available inch of the cypress walls and large beams, are covered with such things as deer antlers, wild boar heads, alligator and Florida crocodile skulls, stuffed wide mouth bass, rattlesnake hides that stretch beyond the 15 foot mark and literally hundreds of natural artifacts collected during a life spent immersed in the simple and profound pleasure of living in the Florida woods. Archie was also a master of the "tall tale." He was a natural and mesmerizing storyteller, who practiced with purpose to preserve the art and skill of recording and orally recounting history through storytelling. He never missed an opportunity to tell a tale and all his life he easily gathered a willing and enthusiastic audience who were instructed and entertained at the same time. He encouraged his own children to remember and recite the old Florida Cracker pioneer tales that he himself had been taught and retold time and time again. He was also a walking, living encyclopedia of the discovery and contemplation of the natural life, creatively shared through stories that one could not help but remember. His own tales were those of fang and claw, survival in the wild, good old fashioned shenanigans and the contemplation of the mysteries of the universe. Archie's stories are part of the very fabric of the oral history of Florida; Archie knew and appreciated that, treasured it and dedicated a large part of his life to ensuring the survival of storytelling as an essential human skill. Like a large oak that stood as a backdrop to the lives of many, Archie Gordon was an authentic Florida Cracker, a well educated and informed historian, a cultural preservationist, a conservationist, a pioneer in the field of engineering and a human being extraordinaire. In reality, it is impossible to capture the legacy he leaves behind; his capacity to perceive and translate what he experienced into something uniquely greater, was too vast to be contained. His death ties a knot in the weave of a section of Florida's history; an incredible, beautiful, intricate knot of the life of a native Floridian who can only be described as legendary in his own right. Archie is survived by his wife of over 56 years, Mary W. Gordon of Weirsdale, Florida; his daughter, Marjorie Gail Gordon Swindell of Havana, Florida; his son, Gregory Henry Gordon and his wife Linda Gordon of Ocala, Florida; his granddaughter, Sarah Beth and her husband Paul Harbus of Ft. Bragg, North Carolina, his nephew Kelly and grandnephew Travis Cook of Washington state. In lieu of flowers the family would appreciate donations being made in Archie's memory to Hospice or to the Florida Sheriff's Boys Ranches of Florida. 1033. CLIFTON, HOWARD JAMES Ocala - Howard James Clifton left his earthly family to be reunited with his family in heaven on March 19, 2009. Howard was born April 10, 1922 in Tidioute, PA to George and Minnie Clifton. He graduated from Warren High School in 1942. At age 20 he joined the Army and served in the Office of Strategic Services (the precursor to the Central Intelligence Agency). He served in China, Burma and India until the end of WWII. Howard was discharged with the rank of Staff Sergeant on Nov. 3, 1945. After his military duty

was over, he returned home and married his sweetheart, Charlotte Kingsley on May 31, 1946. They raised two children, James Howard Clifton (Cathleen) and Carol Ann Fraser (Doug) all whom survive him. Also surviving are grandchildren, Matthew Fraser and Todd Clifton. He was preceded in death by a daughter, Baby Girl Clifton and a grandson, Chad Fraser. Howard led a very active and interesting life up to the time of his passing. Howard and Charlotte started their married life by building a general store in Dugal, PA. They sold the store and moved to Warren, PA, where Howard worked in the offices of Emblem Oil Co. Tired of having his destiny tied to the decisions of others, he built a gasoline filling station, Service Oil Co. in Starbrick, PA. Over the years, two more gas stations and some other side businesses were added to his collection. In 1968, during a vacation in Florida, Howard and Charlotte fell in love with a piece of property in Ocala. With careful planning and lots of work, the tangle of cabbage palm and scrub eventually became Clifton Mobile City. Through the years, this small community became family. Howard's passing leaves a big open space in the lives of his family and all of the people he touched. He always had an interesting tale or wise word to keep the conversation interesting. 1417. GOLDMAN, DAVID I., 76 Ocala - Mr. David I. Goldman, 76. A memorial service celebrating the life of David I. Goldman will be held at the Ocala Breeders' Sales Co. on Sunday, May 3, at 12:00 noon. David Goldman died on April 23, 2009, in Ocala, Florida, after a long battle with cancer. He was 76. He was born Dec. 26, 1932, in Cambridge, Massachusetts, son to Rose and Bob and brother to Sam. He attended Riverside Military Academy in Gainesville, GA and then returned to the Boston area to attend prestigious Brandeis University. Dave was accepted to Harvard Law School, but was then drafted, serving in the Navy from 1955-57. His hobby and greatest passion was thoroughbred racing, his father having been one of the country's original turf writers. His love of racing, together with his unique gift for writing and extraordinary vocabulary and communication skills, eventually led him to a life-long career devoted to the thoroughbred industry. Dave began his career in Massachusetts, and was a regular at all the New England tracks, including those long gone - Narragansett Park, Lincoln Downs, Scarborough Downs and the county fairs - Brockton, Northampton and Great Barrington. He soon left for Ocala, when he saw Florida emerging in national prominence in the thoroughbred industry. Before leaving for Ocala, in 1961 Dave married Susanne Ronai, mother to his sons, Robert, 46, and Peter, 44. In a career that would ultimately have him writing for virtually every prestigious racing publication, domestically and abroad, he first landed in Ocala in 1962, becoming the business manager for the world-renowned Farnsworth Farms. He then moved to South Florida where he became a marketing executive, at various times, for each of the thoroughbred racetracks: Hialeah Park, Gulfstream Park, Tropical Park and Calder Race Course and later, Florida Downs near Tampa. In 1976, he returned to Ocala to become marketing director for the Ocala Breeders' Sales Company (OBS), and later formed Florida Thoroughbred Advertising, an advertising and marketing agency. In that position, he has been responsible for all the TV advertising of OBS. Dave's major claim to fame as a breeder was Caltech, winner of the 1989 Budweiser (Washington) D. C. International (Gr. I) and an earner of more than \$700,000. He then reached his crowning journalistic achievement (in a multi-part series for Daily Racing Form), "The Sunshine Boys," which chronicled the colorful and rich history of racing in Florida. Dave was very much a part of that history. Dave's in-depth knowledge of racing pedigrees and the world-wide thoroughbred industry was unmatched. In 1983, Dave married for the second time - to Catherine Bloomfield Goldman - a world-class equine artist. Dave then discovered another joy - becoming the proud grandfather of Julia (11) and Emma (9). Although he will be sorely missed by the entire racing industry and anyone who had the privilege of knowing him, Dave leaves behind a "stable" rich with friends and family, who loved and adored him more than words can express. In lieu of flowers, the family requests that donations may be made in his name to the Florida Thoroughbred Retirement Home in Ocala, and checks on its behalf be made to Florida Thoroughbred Charities, Inc. 1429. GOLDMAN, DAVID I.,76 Ocala - Mr. David I. Goldman, 76. A memorial service celebrating the life of David I. Goldman will be held at the Ocala Breeders' Sales Co. on Sunday, May 3, at 12:00 noon. David Goldman died on April 23, 2009, in Ocala, Florida, after a long battle with cancer. He was 76. He was born Dec. 26, 1932, in Cambridge, Massachusetts, son to Rose and Bob and brother to Sam. He attended Riverside Military Academy in Gainesville, GA and then returned to the Boston area to attend prestigious Brandeis University. Dave was accepted to Harvard Law School, but was then drafted, serving in the Navy from 1955-57. His hobby and greatest passion was thoroughbred racing, his father having been one of the country's original turf writers. His love of racing, together with his unique gift for writing and extraordinary vocabulary and communication skills, eventually led him to a life-long career devoted to the thoroughbred industry. Dave began his career in Massachusetts, and was a regular at all the New England tracks, including those long gone - Narragansett Park, Lincoln Downs, Scarborough Downs and the county fairs - Brockton, Northampton and Great Barrington. He soon left for Ocala, when he saw Florida emerging in national prominence in the thoroughbred industry. Before leaving for Ocala, in 1961 Dave married Susanne Ronai, mother to his sons, Robert, 46, and Peter, 44. In a career that would ultimately have him writing for virtually every prestigious racing publication, domestically and abroad, he first landed in Ocala in 1962, becoming the business manager for the world-renowned Farnsworth Farms. He then moved to South Florida where he became a marketing executive, at various times, for each of the thoroughbred racetracks: Hialeah Park, Gulfstream Park, Tropical Park and Calder Race Course and later, Florida Downs near Tampa. In 1976, he returned to Ocala to become marketing director for the Ocala Breeders' Sales Company (OBS), and later formed Florida Thoroughbred Advertising, an advertising and marketing agency. In that position, he has been responsible for all the TV advertising of OBS. Dave's major claim to fame as a breeder was Caltech, winner of the 1989 Budweiser (Washington) D. C. International (Gr. I) and an earner of more than \$700,000. He then reached his crowning journalistic achievement (in a multi-part series for Daily Racing Form), "The Sunshine Boys," which chronicled the colorful and rich history of racing in Florida. Dave was very much a part of that history. Dave's in-depth knowledge of racing pedigrees and the world-wide thoroughbred industry was unmatched. In 1983, Dave married for the second time - to Catherine Bloomfield Goldman - a world-class equine artist. Dave then discovered another joy - becoming the proud grandfather of Julia (11) and Emma (9). Although he will be sorely missed by the entire racing industry and anyone who had the privilege of knowing him, Dave leaves behind a "stable" rich with friends and family, who loved and adored him more than words can express. In lieu of flowers, the family requests that donations may be made in his name to the Florida Thoroughbred Retirement Home in Ocala, and checks on its behalf be made to Florida Thoroughbred Charities, Inc.
